Design lineare, essenziale e "puro" per una linea di rubinetti dall'anima ecologica. Eco e Power consentono di risparmiare in consumo idrico quotidiano e riducono considerevolmente accensioni degli impianti di riscaldamento acqua indesiderata allungando la vita degli impianti e riducendo le emissioni. Due funzionalità innovative ed "intelligenti" per un rubinetto intelligentemente moderno. Declinato in tutte le esigenze funzionali delle ambientazioni moderne.

Linear, essential and pure design for a mixer range with an ecological soul. Eco and Power features allow a daily saving of water with a significant decrease of unnecessary hot water system starts, significantly increasing the duration of the heating system itself and reducing smog emissions. Two innovative and "intelligent" features for a cleverly modern mixer enriched with its different functional solutions for up-to-date settings.

- > Erogazione con apertura in due modalità (ECO e massimo utilizzo)
- > Apertura centrale su temperatura ambiente, miscelazione acqua calda solo con movimento a sinistra
- > Areatore anticalcare per massima resa di lavaggio con sistema di manutenzione in dotazione
- > Docce con sistema hydro-power per massimo benessere e minimo utilizzo acqua
- > Design essenziale
- > Corpi realizzati da pezzo unico lavorato

- > *Two-step opening (eco and maximum use)*
- > *Water flow at room temperature by handle opening in central position, hot water supply by turning left only*
- > *Anti-scale aerator with maintenance device included for a maximum cleaning efficiency*
- > *Shower heads with Hydro-Power system for best benefit with minimum water use*
- > *Essential design*
- > *Mixer body made from a single piece mechanically treated*
