La tradizione autoctona del disegno razionalista scopre una nuova veste fatta di sobrietà e rigore. Linee nette, tagli marcati, miscelatori d'impronta cubista per morbide cascate d'acqua in grado di trasformare ogni bagno in un'oasi di piacere privato.

The Italian rational design tradition discovers a new style made of sobriety and severity. Net lines, clear cuts, a cubist flavour mixer for soft water falls which are able to transform any bathroom into a nice private oasis.
